POPE URGES COMMUNISM WAR

RESCUERS SEEKING BODIES OF VICTIMS NORWAY AVALANCHE

BEAUTIFUL LAKE SENT SURGING OVER TWO VILLAGES BY GREAT ROCK SLIDE

LEON, Norway, Sept. 14.—(P)—Rescue parties today searched beautiful Lake Leon, turned into a death-trap by a roaring avalanche and resultant flood, for the bodies of many of the 74 victims of one of Norway's great natural disasters.

The twin villages of Bodal and Nesdal, nestled at the foot of 6,388-foot Rognes mountain in this famous tourist region, were virtually wiped out when a huge mass of rock slid down into the lake with a terrifying rumble and sent a great wall of water sweeping over the area.

The natives, started from their early morning sleep, had no chance to escape from the great wave which poured through the narrow valley after the massive rock—at least 1,200 feet broad and 7,500 feet high—rolled into the lake.

Relief workers, including doctors and nurses who flew here from Bergen and Oslo, established temporary hospitals in the few remaining homes in this beauty spot.

Bodies of human beings and animals, as well as furniture and household articles, floated on the surface of the lake. There were scores of corpses of silver foxes, bred by the farmers of the region.

An old steamboat, perched 350 feet up the mountainside since a similar disaster in 1905 in which 60 were killed, was swept another 300 feet higher by the immense wave.

The water rushed a mile inland at some points, destroying an electricity plant, leveling roads and bridges.

Most of the survivors in Bodal and Nesdal—only about 20 were saved—and 13 of them were in serious condition—lost all their possessions.

"The avalanche made a noise like thunder," said one of those rescued. "Nothing is left of my family or my home—everything is gone."

BENEFICIAL RAINS FALL IN TEXAS AS STORM'S AFTERMATH

COAST AREAS GET HEAVY PRECIPITATION; SHOWERS AND CLOUDY IN NORTH

(By The Associated Press.) Beneficial rains fell in many sections of Texas today as an aftermath of a tropical disturbance which spent itself in the sparsely settled gulf coast region, about 70 miles south of Corpus Christi.

Damage was negligible, although the Bay City region rice crop suffered some.

Total rainfall at Corpus Christi was 1.39 inches. Blustery winds were in evidence. Brownsville reported more than four inches in the past 36 hours. Showers were falling.

Beaumont reported a 1.73 inches precipitation for the 24-hour period ending at 7 a. m. today. Heaviest rainfall came early last night when lightning struck a brick chimney but caused no damage.

Cloudy and unsettled weather prevailed in Galveston where rains in the past 24 hours totaled .98 inch. Houston reported cloudy and unsettled weather. Rains during the 24-hour period totaled .46 inch.

A 3.33 inches downpour gave the Laredo area its heaviest precipitation in past years. Ranchers, cotton planters and onion and tomato growers said the rain would benefit them.

Falfurrias and Alice reported beneficial showers. Scattered showers brought San Antonio a .32-inch rainfall.

In North Texas, Corsicana and Palestine reported light showers. Light showers fell in Fort Worth this morning, a continuation of Sunday's showers, first rain since Aug. 23. Dallas experienced its first rain in several weeks as intermittent drizzles fell.

Most Beautiful Blond on Stage At One Time Suicides

HARRISON, N. Y., Sept. 14.—(P)—Adele Blood Hope, once known as "the most beautiful blonde on the American stage," died today, a few hours after her daughter, Dawn Hope, found her lying in her bedroom, a bullet wound in the head.

THE PRESIDENT ENJOYS A SOAKING

Drenched and dripping, but unmindful of the downpour, President Roosevelt is shown at Charlotte, N. C., riding in an open automobile minus a raincoat, as he arrived to address a seven-state "green pasture" rally of democrats. (Associated Press Photo)

TWO WOMEN BEGIN BATTLE OVER HUGE ESTATE OF GREEN

WIDOW OPPOSES PROBATE OF WILL MADE BEFORE MARRIAGE TO FINANCIER

ELIZABETHTOWN, N. J., Sept. 14.—(P)—Two women vied here today in a legal battle for control of the \$80,000,000 fortune left by Col. E. H. R. Green, son of Hetty Green, the eccentric railroad queen. Preliminary arguments were scheduled before Surrogate Harry Owen.

A 180-word will, filed at Port Henry last month, left the entire estate to Colonel Green's sister, Mrs. Matthew Astor Wilks, of New York City.

Opposing probate of the 28-year-old document was the widow, Mrs. Mabel Harlow Green, of South Dartmouth, Mass.

Colonel Green died in Lake Placid last June 8. Mrs. Green is entitled to the estate under a will made in 1908, nine years before Colonel Green's safe deposit box in a hunt for a more recent will. She also filed a bill in equity to get title to half his holdings amassed in Texas after their marriage.

Under Texas community property laws, Mrs. Green is entitled to all personal property acquired by her husband subsequent to their marriage. Some lawyers in Texas expressed the opinion that the will would be valid, except that the widow is entitled to share in property acquired after marriage.

Mrs. Green has asked the court here for the appointment of a temporary administrator and permission to search Colonel Green's safe deposit box in a hunt for a more recent will. She also filed a bill in equity to get title to half his holdings amassed in Texas after their marriage.

Clayton and unsettled weather prevailed in Galveston where rains in the past 24 hours totaled .98 inch. Houston reported cloudy and unsettled weather. Rains during the 24-hour period totaled .46 inch.

Famed Chinese Troops Bar Japs From Landing

HONG KONG, Sept. 14.—(P)—Soldiers of the 19th Route Army refused today to allow a Japanese commission to land at Pakhoi to investigate the reported slaying of a Japanese citizen by Chinese rioters.

The soldiers' resistance to the Japanese spread alarm through the city. About a tenth of the population fled in fear the Shanghai "war" of 1932 might be repeated.

Although the Japanese were barred from landing, four more Chinese investigators were reported on their way to Pakhoi.

Chinese reports maintained the victim, Janzo Nakano, a drugstore proprietor and long a Pakhoi resident, was mistaken by bandits for a Chinese. They said he wore native dress and spoke the local dialect.

Another Jap Destroyer. SHANGHAI, Sept. 14.—(P)—Chinese efforts to prevent disembarkation of Japanese investigators at Pakhoi resulted today in another Japanese destroyer leaving hurriedly for the South China district.

Reports received by Japanese in Shanghai declared Chinese demonstrators were attempting to prevent the officials sent by the Tokyo government to inquire into the

MILITARY MIGHT OF REARMED GERMAN ON DISPLAY MONDAY

GERMANY'S NEW COMPULSORY ARMY PARADES BEFORE HITLER

By WADE WERNER (Copyright, 1936, By Associated Press.) NURNBERG, Germany, Reichschancellor Adolf Hitler warned his soldiers today "serious times may come but they will never find us wavering, disheartened or cowardly."

Der Fuehrer, in a brief ten-minute address at the fourth annual Nazi convention, told his troops:

"The future belongs solely to the brave."

He promised them: "For two years I demand of you I will return ten years of better health. What you give the fatherland in your youth will be repaid to you in old age."

Hitler reiterated his profession of peaceful intentions and said, "You, my soldiers, have been called by the nation not to serve a fanatical attempt by exaggerated Chauvinism but to keep watch over our labor, our people and our Deutschland."

NURNBERG, Germany, Sept. 14.—The thunder of battle shook Nurnberg today. Nazi Germany's new compulsory service army staged its first display of strength with steel and motorized equipment for the benefit of its Fuehrer, Adolf Hitler, and hundreds of thousands of Nazis assembled in fourth annual convention.

So realistic was the mimic warfare that the Nurnberg fire department was called out to quench an unscheduled blaze created when a tank, fired by a soldier, burst into flame.

After Hitler, in an informal conversation, had asserted Germany will guard jealously the principle

TROPICAL STORM GOES INLAND NEAR CORPUS CHRISTI

BENEFICIAL RAINS OFFSET ONLY SMALL DAMAGE REPORTED FROM WINDS

CORPUS CHRISTI, Sept. 14.—(P)—A tropical disturbance, which caused apprehension along a section of the Texas coast Sunday, was considered today responsible for rains far more beneficial than the small amount of damage wrought during its short duration.

The maximum wind velocity was about 40 miles an hour and most of it was spent in the sparsely settled area about 70 miles south of Corpus Christi.

The center of the storm, which caused warnings to be posted along the Southern coast, apparently struck inland south of Bay City. It was accompanied by rain squalls.

Damage was confined mostly to flimsy buildings and sailboats. A driving rain damaged the rice crop somewhat in the Bay City section.

The storm first approached the coast near Brownsville and then moved northward parallel to the coast.

See STORM, Page 8

UNFORTUNATES NOT ELIGIBLE FOR ASSISTANCE FROM OTHER RELIEF AGENCIES GIVEN AID

The case of a person who is eligible for neither county assistance nor governmental relief, but who is absolutely dependent upon charity for life itself, was cited today by Miss Augusta Helm, United Charities secretary.

The case was being handled Monday by the United Charities, but Miss Helm pointed out it is only one of many such cases that are handled by her organization the year round.

Miss Helm said there is an old negro man, living in the city limits, who is ill and is dependent for support upon his nine-year-old grandson, whose earning capacity is nil. She said the negro has not been an undesirable citizen, but is unfortunate in that he has no means of support.

"We don't have any money to do about this case, but one thing is certain: we are not going to let him suffer."

"He has no relatives to support him, nor is he connected with any organization that could be appealed to for support—I suppose we will just have to help someone in the city to help us with him," Miss Helm said.

OIL-POWERED GERMAN AIR GIANT HOPS 2,390 MILES

The oil-burning ten-ton German flying boat, Zephyr, is shown as it landed at Port Washington, N. Y., after a flight of 22 hours and 14 minutes from the Azores. The giant ship had been exploring the southern air route of the north Atlantic in preparation for a projected regular air service across the Atlantic. A sister ship, the Aeolus, also arrived Saturday. (Associated Press Photo)

STATE OF MAINE RESUMES ITS PLACE AT HEAD OF POLITICAL INTEREST IN PRIMARY TODAY

SETTING OF TAX RATES FEATURE OF SESSION OF COURT

RESIGNATION DR. L. E. KELTON, JR., FROM HOSPITAL BOARD ACCEPTED

(By The Associated Press.) Maine took its quadrennial place in the political sun today as citizens of the Pine Tree state voted in their state election.

Throughout the nation political experts were on the alert, watching for portents of the presidential outcome in November. There is much dispute as to how far Maine's election can be considered a "weather vane" of national sentiment, but every four years the major parties seek to wring every last ounce of psychological advantage from it.

President Roosevelt visited the state some time ago, followed by Gov. Alf M. Landon, who made a speech at Portland Saturday night.

One of the principal contests is between the democratic Governor Louis A. Brann and the republican Senator Wallace H. White, Jr., for the latter's senatorial seat. Governor, members of congress and other state officials also will be elected. Presidential balloting in Maine, as in other states, will take place in November.

Five Primaries Tuesday. Voters of five states ballot tomorrow in state primaries. Following are some of the high lights: Massachusetts—Much public interest centers on the contest for the democratic senatorial nomination. Candidates are Gov. James M. Curley; Mayor Robert E. Greenwood of Pittsburg; and Thomas C. O'Brien, also Union party candidate for vice president. O'Brien is not on the senatorial ballot, but backers are conducting a campaign for "write-in" votes.

New Hampshire—The former political allies, Governor H. Stanley Bridges, 38 years old, and the veteran ex-Senator George H. Moses are contesting for the republican nomination to the senate seat from which the republican Senator Henry W. Keyes is retiring.

Wisconsin—Gov. Philip F. La Follette is unopposed for the La Follette field said.

RICHMAN-MERRILL PLANE FORCED DOWN IN NEWFOUNDLAND

NO INFORMATION AVAILABLE WHETHER FLIERS WERE INJURED

By CHARLES E. HARNER (Copyright, 1936, By Associated Press.) NEW YORK, Sept. 14.—(P)—The Canadian Press said today the round trip trans-Atlantic airplane of Harry Richman and Dick Merrill was forced down at 1:20 p. m. (E. S. T.) on the northeast coast of Newfoundland. Officials awaiting them at Floyd Bennett field said they had no confirmation.

Whether either flier was hurt was not immediately determined. Attempting to traverse their path over the Atlantic which carried them eastward a forced landing in Wales, the two men took off for New York early this morning from a London airport.

Today's reported forced landing occurred at a marsh three miles from Musgrave Harbor, N. P. Earlier, at 12:05 p. m. (E. S. T.), their single-motored plane had been sighted off Cape Race, N. F., radio reports to Floyd Bennett field said.

Telegraph agencies in Newfoundland reported that the plane came in over Sir Charles Hamilton sound and circled Carmanville for nearly 15 minutes, probably searching for a soft landing field, then nosed over for Musgrave Harbor.

Mrs. Thornton, who came here six weeks ago from Port Arthur, Texas, to reside with her daughter, died in a hospital two hours later.

MILITANT DEFENSE AGAINST SINISTER FORCES CALLED FOR

KILLERS OF BISHOPS AND PRIESTS IN SPAIN PARDONED BY PIUS

By The Associated Press.) Pope Pius XI, with the whole world as his audience, gave his solemn and passionate blessing today to a militant defense against the forces of communism which, he said, menace "the very foundations of all order, all culture and all civilization."

The holy father pardoned the killers of bishops and priests in Spain and declared subversive forces there and elsewhere aim at arming the masses "and throwing them madly against every form of institution, human and divine."

He called upon "those who have a duty in the matter" to act—if indeed, it is not already too late.

On the battlefield, fascist warriors completed their occupation of San Sebastian and set up a civil administration headed by the governor of Pamplona.

Government forces to the south claimed they had flung back a vicious attack at Talavera, on the road to Madrid, capturing mortars, machine guns and arms. Diplomats, meanwhile, were trying to obtain the release of women and children among the 1,700 fascists who have been besieged under shell fire in the Alcazar at Toledo for more than eight weeks.

The French minister of public works, in Paris, charged Spanish fascist had stoned the French flag at an international station causing the halting of railway service into insurgent territory.

Rightists in France charged the socialist government with trying to provoke a new uprising, in tragic Spain, and cause trouble in the "fascist territories," who seized power at the beginning of the revolution.

Assassination Plot Thwarted. MADRID, Sept. 14.—(P)—Government forces said today secret police had thwarted an alleged fascist plot to assassinate President Manuel Azana and Premier Francisco Largo Caballero.

An espionage network, said most of the ranking officials of the

POPE PIUS MAKES PLEA FOR DEFENSE AGAINST COMMUNISM

PONTIFF DECLARES VERY FOUNDATIONS OF ORDER AND CULTURE MENACED

By ANDRUE BERDING (Copyright, 1936, By Associated Press.) CASTEL GANDOLFO, Italy, Sept. 14.—(P)—Pope Pius XI, in strong, passionate tones, gave his blessing before the whole world today to a militant defense against the "mad" forces of communism.

Declaring these forces menaced, in tragic Spain, and cause trouble in the "fascist territories," who seized power at the beginning of the revolution.

He asked his listeners to "love" these "others" in spite of their "deeds and methods of persecution, so odious and so cruel," and to "love them with a special love born of mercy and compassion, to love them and, since we can do nothing else, to pray for them."

Sadly, he foresaw utter chaos if "those who have a duty in the matter do not hasten to repair the breach—if indeed, it is not already too late."

Five hundred of the Spanish refugees to whom the Pontiff tendered his heartfelt greetings and admiration were in the throne room of the Papal Villa when the Pope entered.

His first few words were faltering but his voice gradually grew strong.

Voice Breaks With Emotion. At a few of the more intense

Magnus Johnson, Former U. S. Senator Passed Away Sunday

LITCHFIELD, Minn., Sept. 14.—(P)—The death of Magnus Johnson, colorful 64-year-old Swedish immigrant farmer who served in the U. S. senate and house of representatives, left a gap today in the ranks of Minnesota's pioneer Farmer-Labor politicians.

Johnson died of pneumonia at a hospital here yesterday after a three-weeks' illness.

Born in Varmland, Sweden, Sept. 19, 1871, Johnson worked as a sailor and a glass-blower before coming to America when he was 19.

DISTRICT MEETING OF COMMUNITY GAS CO. HERE TONIGHT

COMPANY STARTS ADVERTISING CAMPAIGN TO SAFEGUARD CUSTOMERS' HEALTH

Methods of creating more healthful home conditions by proper heating and ventilation will be discussed at a district meeting of the Community Gas Company to be held in Corsicana tonight. The company has started an advertising campaign to give its customers information on how to protect themselves from winter colds and similar ailments and meetings are being held to present details of the campaign to company employees.

A number of executives of the gas concern are expected at the meeting tonight. Among them are D. A. Huley, vice-president, L. Star, general manager, Chester L. May, vice-president and general manager of the Community Natural Gas Company, L. B. Denning, Jr., general superintendent, and Will C. Grant, advertising director, all of Dallas. C. A. L. of Waco, district superintendent, and a number of district managers from nearby towns are expected.

In preparing its campaign, the company has made a study of the causes of colds and respiratory diseases, and quotes medical authority to the effect that many colds which are so prevalent in the Southwest are caused by bad ventilation, huddling in one room, and poor heating methods.

AGED WORTHAM MAN WAS BURIED THERE SATURDAY AFTERNOON

WORTHAM, Sept. 14.—(P)—J. Bell, age 75, died at the home of T. O. Sims at 1 o'clock a. m. Saturday, after two days' illness. Deceased was born in Huntington, Tenn., and came to Texas in 1913. Mr. Bell has lived in Wortham for 18 years, where he owned a bakery for many years, and was well known to Wortham people.

Funeral services were held Saturday afternoon at the Sims home conducted by the Rev. T. S. Ogle, pastor of the Methodist Episcopal church, of which deceased was a member. Assisting in the service were the local pastors of the other churches. Only relatives surviving are one daughter, Mrs. Cowden, and four grandchildren of Corsicana.

Burial was in the Wortham cemetery. Burleson and Son, funeral directors, were in charge.

BLOOMING GROVE SCHOOLS OPENED; TWO OTHERS JOIN

BLOOMING GROVE, Sept. 14.—The 1936-37 Blooming Grove schools opened Monday morning after a special program held Sunday night in the auditorium. The Carroll and Pecan school districts have consolidated with the local district for this year and the schoolchildren from those communities will be brought to the local school in busses. A large number of schoolchildren from the Dresden school have transferred. School authorities expect an enrollment of 500 pupils.

School officials and teachers include: C. C. Ishell, superintendent; Clyde Ross, principal, and assistant coach, Mrs. G. E. Ramsey, Sr., English; W. P. Orme, vocational agriculture; Miss Opal Allmon, home economics; Ralph Hooker, commercial subjects and athletic coach. Elementary teachers are Miss Gladys Haines, Miss Taunite, McCarty, Miss Kathleen Connolly, Miss Ruby McCravy, Mrs. K. Hartley, Miss McKinney.

Rural Mail Route Southeast Kerens Has Been Extended

KERENS, Sept. 14.—(Spl.)—The postoffice department has authorized an approximate five-mile extension to one of the rural routes out of Kerens, bringing the service nearer the homes of about 50 families in the territory southeast of Rural Shade, according to an announcement by J. C. Clayton, postmaster.

The extension, for which patrons have been petitioning the department for several years, becomes effective Oct. 1. It provides for service down the Wild Cat Ferry road southeast of Rural Shade to the intersection of the Princeton school road, then west past Peloton school to the residence of W. V. Goodwin, then north to rejoin the present route south of Rural Shade.

THE CORSICANA DAILY SUN DAILY PATTERN

TRIM ABOUT-TOWN FROCK WELCOMED FOR ITS SLENDER LINES Pattern 4060

by Anne Adams

Anne Adams knows that there's nothing like a sparkling new frock to give a "lift" to a tired wardrobe, thus witness her exclusive design, Pattern 4060, a frock of trim, slim lines, certain to prove popular for fall and winter wear. Simply made, in shirtwaist style, its becoming square collar flatteringly tops a clever yoked bodice, while full gathers provide freedom of action both front and back. Grand for everyday wear, this slenderizing model, and appropriate for informal dress-up occasion, too! A wide variety of fabrics would be suitable—novelty wool, perhaps, lustrous satin, silk crepe or synthetic.

Pattern 4060 is available in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46 and 48. Size 38 takes 2-3/4 yards 54 inch fabric. Illustrated step-by-step sewing instructions included.

Send Fifteen Cents (15c) in coins or stamps (coins preferred) for the Anne Adams pattern. Write plainly name, address and style number.

BE SURE TO STATE SIZE
Send for your copy of our New Anne Adams Pattern Book, just out. See the latest fall fashions, fabric accessories. Learn how easily you can have smart new frocks, a dashing new coat or suit, blouses, skirts, house-dresses. Models to flatter every type and age—from tiny toddler to matrons longing for that slim and youthful look. Book Fifteen Cents. Pattern Fifteen Cents. Twenty-five Cents for Both When Ordered Together.

Address orders to Corsicana Daily Sun, Pattern Department, 243 W. 17th St., New York, N. Y.

Goings and Comings Of Fairfield Folk And Their Visitors

FAIRFIELD, Sept. 12.—(Spl.)—Mr. and Mrs. C. L. Williamson and Miss Ora Kate Kirgan were in Waco Tuesday.

C. F. Simpson recently nominated tax assessor and collector was operated on for appendicitis in a Teague hospital Wednesday. He is reported doing nicely.

Miss Esther Lee Wells of Teague visited Mrs. Marvin Harris here this week.

Mrs. Henry Eubank is visiting relatives in Houston.

Miss Mildred Robinson of Prairie Hill visited relatives here Sunday.

Edward Parker of Baytown visited home folks here during the week-end.

Mrs. John Henderson of Pyburn is visiting Mrs. A. S. Johnson and family.

Herman Middleton of Denison is visiting his brother R. B. Middleton.

Messadames G. A. Parker and Julia Johnson and G. A. Parker Jr., Millard Johnson, J. R. and Juliette Manahan visited the Centennial Friday.

Mrs. E. E. Owens is visiting her daughter, Mrs. Robert Holloway, at Oakwood this week.

Mr. and Mrs. Lon Simpson and son, Charles, of Stamford visited Mr. and Mrs. C. F. Simpson this week.

Mrs. Jim Miles has moved into her new home in the north part of town.

Clarence Bass and family of Levelland were here Tuesday.

Mr. and Mrs. Roy Chaney of Carthage visited Mr. and Mrs. C. R. Glazener over the week-end.

The following Fairfield people attended the all-star football game in Dallas Monday night: J. R. Manahan, G. A. Parker, Jr., George Fryer, Joe Ed Eubank, Shorty Manahan, Dickie Eubank and Misses Doris and Eloise Williamson.

Miss Marjorie Tate and Elsie Lee Emmons are visiting Mrs. Bryan Gilpin in Teague.

Mr. and Mrs. Jim Tate and family and Mrs. Ora Tate visited in Corsicana Sunday.

Dr. and Mrs. W. McFadin and children Hazel Grace and Billie visited in Dallas Sunday. Mrs. McFadin and children remained for a week's visit with relatives.

Mr. and Mrs. George Smith and son, of Gilmer were the week-end guests of Mr. and Mrs. D. L. Dupuy.

Mr. and Mrs. Willie Fischer of Palestine visited relatives here the past week-end.

Misses Louise Anderson, Mary Leona Huchaby, Katherine Anderson, Josephine Childs, Ora Kate Kirgan and Evelyn Fryer attended the centennial Sunday.

Mr. and Mrs. Jack Crawford of Houston visited relatives here last week-end.

Dr. and Mrs. Chas. Schacht of Hillsboro and Edell Sheffield of Teague visited relatives here Sunday.

Mrs. Joe Alexander of Dallas is visiting her mother, Mrs. Earl Talley.

Mrs. Lonnie Childs of Dawson is visiting here.

Mr. and Mrs. E. R. Glazener and family visited in Dallas this week.

visited her parents, Judge and Mrs. A. H. Benbrook, last week. Mr. and Mrs. J. C. Woods of Coldwater visited the late's mother, Mrs. C. A. Love, Sunday.

Mrs. Love accompanied them home for a short visit.

Miss Valrie Condrey left Saturday for Jacksonville where she will enter Lon Morris college.

Mr. and Mrs. Lendon Red were in Fort Worth last week.

Miss Lottie Nell Emmons was in Dallas this week.

Mrs. Dan Coats of Weslaco and Miss Anna Belle Roller of Mexia are visiting Mrs. Howard Watson this week.

Misses Doris Williamson and Addie Goff were in Teague Wednesday.

Mrs. Henry Joyce and Joy Kirgan, Eleanor Parker, Ruth Hunter and Alta Mae Kirgan were in Tehuacana Wednesday.

John Clayton Oakes and Dub McDonald of Tehuacana were in Fairfield last week.

Mr. and Mrs. W. M. Day of Houston spent the week-end here with their parents, Mr. and Mrs. J. F. Day.

Mrs. T. W. Ely, Sr., of Dallas is visiting relatives here.

Miss Anna Newman of Kirven visited Miss Janice Weldon here this week.

Miss Christine Bond was accompanied to Jacksonville Monday by her parents, Mr. and Mrs. Bowen Bond, where she entered Lon Morris College.

Mr. and Mrs. Ray Allen of Dallas visited the former's sister, Mrs. F. A. Lyons last week-end.

Miss Doris Williamson visited her aunt, Mrs. C. L. Jeanes in Houston last week.

Mrs. Bernhard Fischer visited relatives in Dallas last week.

Miss Gladys Cole spent the past week with Miss Zell Wyatt in Teague.

Mrs. Ruth Stubbs of Gause visited the Cullisons Saturday.

Turney Glazener of Kilgore spent the week-end here.

J. F. Huchaby of West Plains visited friends and relatives here this week.

Ramon Kirgan, employed in the work of mapping Texas' roads, left Monday for Waco to resume his duties.

Miss Agnes Odom left Sunday for Houston where she will teach in the Galena Park school.

Lindsay Glazener, a member of the crew of the S. S. Atlantis has been visiting his mother, Mrs. Lee Glazener, a few days. He left Tuesday for New York to join his ship.

Misses Virginia Williford and Bernice Withrow of Mexia visited friends here Tuesday.

Miss Carolyn Vincent of Jewett visited friends here Friday.

Joseph Browne of Austin visited Johnnie Hill here this week.

Miss Mary Linn Powell has returned from St. Louis where she spent the summer with her sister, Mrs. Fred Swinburn.

MEXIA MIDSHIPMAN VISITED RELATIVES DURING WEEK-END

Blake Forrest of Mexia, midshipman at the United States Naval Academy, Annapolis, Md., spent the week-end visiting in the home of his grandparents, Mr. and Mrs. Sam J. Jackson and other relatives here. He is the son of Mr. and Mrs. N. B. Forrest, Mexia.

Forrest completed a three-months cruise in European waters on the U. S. S. Arkansas on Aug. 20, and will return to the Naval Academy on Sept. 30.

The three ships carrying 1,100 midshipmen on the European cruise were the U. S. S. Arkansas, the U. S. S. Oklahoma and the U. S. S. Wyoming. About July 30 and the ships were in the Mediterranean Sea, off the coast of Bilbao, Spain, and Forrest reported seeing fashions from guns on the coast of Spain, resulting from the civil war there. He also saw a rebel cruiser, "Almirante Cervera" near the U. S. S. Arkansas.

He said all the midshipmen were taken off the U. S. S. Oklahoma and transferred to the other two ships to make room to take refugees away from the Spanish war zone.

Other places visited were Portsmouth, Eng.; Göteborg, Sweden, and Cherbourg, France.

The ships returned to Norfolk, Va., for four days, then fired short range battle practice at southern drill grounds off the Virginia coast. They went next to New York City for three days, and then returned to Annapolis.

Forrest is a graduate of Mexia high school; spent one year at State University, Austin, and has completed his first year at the Naval Academy.

FINE SPIRIT SUNDAY AT OPENING SERVICE OF BAPTIST REVIVAL

A fine spirit prevailed at the First Baptist church yesterday, where a revival meeting started to last for two weeks. Rev. Miller preached at both hours as Rev. Appelman, who is to do the preaching, did not arrive till today.

Yesterday morning Rev. Miller brought a splendid message on "The Cost of Penteost." Last evening he preached on "The Message of Penteost," which was even better than the morning message.

C. C. McClung led the singing in the morning service. Mark Short, who is to lead the singing during the revival, won the hearts of the people last evening when he led the singing so well.

There were 44 in Sunday school yesterday morning, and good programs in all departments. There were 100 in B. T. U. Rev. Miller charged the Training Union to do its part in making this a great revival.

Everyone in Corsicana is invited to attend the services at the First Baptist church these next two weeks. Rev. Hyman Appelman, a converted Jew, will arrive this afternoon and will have charge of the service this evening. Mark Short urges all who can sing to join the choir each evening.

Prayer meetings will be held each evening preceding the preaching service, from 7 to 7:30. The intermediates and juniors will meet Mr. Short in the church parlor at this same time for their choir rehearsal.

A warm welcome awaits all at these services each day.

News of County Home Demonstration Clubs

White's Chapel.
"Certain vegetables might be made more appetizing if they are served in a variety of ways," Miss Ruth McNabb, home demonstration agent, told the White's Chapel Home Demonstration Club at the home of Mrs. Studie Bashum Wednesday afternoon, Sept. 8th.

Miss McNabb continued by saying, "Vegetables should be broiled in as small a quantity of water as possible, and the liquid used for soups, because it contains the vitamins and minerals that are good in water."

"Highly flavored vegetables, such as onions, cabbage, etc., should be boiled without a cover on the pot. This also retains the color."

"Baking is the ideal way of cooking, and where possible do that or steam, for in that way the health-giving minerals are saved in the vegetables."

Miss McNabb then had the club members score the vegetable dishes that had been brought. In serving your dishes be sure to note:

1. General appearance. Is the container suitable and convenient?

2. Flavor. Does it have its natural flavor and odor, and it is seasoned correctly?

3. Texture. Are there any tough fibers or overgrown peas, beans, etc.?

4. Is the color natural for the fresh vegetable?

If we would all follow these general rules in serving our meals they would be more appetizing.

The visitors were Mrs. Nettie Howard from Corsicana, Mrs. J. R. Scoggins, Barry, and Mrs. S. E. Burton, White's Chapel. There were 25 club women, visitors and children.

After the meeting the hostess, assisted by her sister, Miss Addie Parrish, served tea and cookies.

Three were fined on drunkenness charges and two for assaults during the week-end by Judge W. F. McMiller.

Eight were fined on drunkenness charges, one for swindling with worthless checks, two for theft, one for reckless driving and one for running without license plates by Judge M. Bryant during the week-end. The arrests were made by Constable W. B. Grantham and Deputy Constable Jake Nutt.

A negro was arrested for reckless driving and operating a car without license plates by the constable's department following a wreck on Highway 75 in Corsicana Saturday night in which D. K. Robinson received injuries.

C. E. Tanner of Dawson was arrested by Constable Grantham and Deputy Nutt, and was charged by complaint before Judge Bryant with assault with intent to murder as a result of knife wounds received on Commerce street Saturday afternoon by Hop Burleson of Richland. A wound in the side was received by Burleson. The injured man is in the P. and S. hospital. Bond was set at \$750 which was made to await the action of the grand jury.

One man was bound over to the county court on aggravated assault charges by Judge Bryant for alleged attack on his wife and daughter. The arrest was made by the constable's department.

Topsy, Show Thief, Steals Public Favor With Her Pranks

A circus performer who has spent hundreds of dollars and years of his life to perfect an act, sometimes finds to his dismay that his audience's eye has been stolen by the simple prank of a clown drawing a tenth of his salary.

Topsy, though not officially listed as a clown, is just such a show-thief as that. Topsy is a four-year-old chimpanzee, and those who attend Russell Brothers Circus, which will give matinee and evening performances in Corsicana on Monday, Sept. 21, will more than likely miss some interesting parts of the program when that rascally little ape makes her appearance.

Although rated as one of the most perfectly trained animals in the show world, a large part of Topsy's charm lies in her absurd offstage antics. One moment she may turn a series of somersaults; the next may see her scampering hand-over-hand up a guy-rope, or eating with apparent relish a handful of dirt.

In the circus dining tent, Topsy and her trainer occupy a private table. Topsy must be watched then so that she will use the proper silverware for each course, and will send her food to its intended destination instead of bombarding other diners with stalks of celery or orange slices.

Russell Brothers Circus has its permanent winter quarters at Rolla, Missouri, in the foothills of the Ozark mountains. Here, on Sunday afternoons in the early Spring, thousands of townfolk and tourists come to see the animal and to watch the trainers perfect the coming season's routines.

Often the horse trainer will find only a few people admiring his thoroughbred stallions; the elephant trainer, too, can work without the comments and stares of onlookers; lions and leopards sleep in peace, and Bactrian camels chew their cud and doze. A casual visitor to the grounds might think them deserted until he hears screams of laughter and sees, in a far corner of the lot, a large circle of men, women and children. Topsy, tied to a tree, has stolen the show.

Topsy may be a despicable little show-thief—but her thievery is more than condoned by her willful winter quarters at Rolla, Missouri, in the foothills of the Ozark mountains. Here, on Sunday afternoons in the early Spring, thousands of townfolk and tourists come to see the animal and to watch the trainers perfect the coming season's routines.

FAMOUS FOOTBALL STAR AND HOLLYWOOD FAVORITES IN CIRCUS

REB RUSSELL ONE OF FEAT- URES OF BIG SHOW COM- ING TO CORSICANA

"Reb Russell" is a name familiar to all followers of the gridiron and the name will become even more popular year after year.

"Reb's" life to date has been one of surprises to himself. Originally a Pawhuska, Okla., cowboy and rancher and now a resident of Gov. Landon's state, he never did anticipate that his name would be in the headlines of metropolitan papers or in electric lights in front of theatres or on the billboards of the country. However, all of this has happened.

Reb made the conference team while attending a university in Nebraska in 1925, and when he went to Northwestern University at Evanston, Ill., from which institution he graduated in 1932, he became one of the heroes or the "All-American" team as published in the Chicago Tribune and the Northwestern. During his entire college career he played football. In 1930 he was put on the All-American team as fullback. The late Knute Rockne credited him for this distinction. In an interview in the Chicago Tribune after Notre Dame and Northwestern had just had a hot contest, Rockne said "Reb Russell is the greatest plunger I ever saw on the gridiron." It happened that in that particular game, Reb carried the ball alone almost as much yardage as the entire Notre Dame team had carried it.

Unexpectedly Reb found himself on the 1930 All-American team; unexpectedly he received an offer from picture producers to star in Westerns; unexpectedly he finds himself a prominent feature in one of the strongest and best circuses in America—the Russell Bros. Circus, which is due for exhibitions in Corsicana on Monday, Sept. 21. Reb Russell is not only a relation to the owners of the Russell Bros. Circus, although the latter would be glad to claim him as such. After making 14 pictures with the circus, accompanied by his horse, Reb, perhaps the most beautiful and intelligent horse ever seen with any circus. These two will give circus goers something to talk about and their appearance will not soon be forgotten.

NAVARRO COUNTY LOANS AMOUNT TO NEARLY MILLION

In Navarro county 348 loans were closed in the amount of \$928,950 by the Federal Land Bank and the Land Bank commissioner, from May 1, 1933, through June 30, 1936, according to information received by H. P. Drought, national emergency council state director for Texas.

Of the loans closed in this county 112 for \$495,300 were made by the Federal Land Bank and 236 totaling \$433,650 by the Land Bank commissioner.

Through the agency of the Farm Credit Administration in Texas \$196,139.97 has been loaned during the same period. These loans included 18,393 of Federal Land Bank loans for \$99,439,400, 31,213 of Federal Land Bank loans for \$1,058,151,000; 27,593 Production Credit Associations totaling \$27,780,358; 123,286 emergency crop loans amounting to \$13,508,994, and 42,634 drought relief loans for \$8,970,222.

In addition to refinancing loans through the Farm Credit Administration, the farmers in Texas were benefited also by a reduction of mortgage principal, which amounted to \$6,282,000. Further savings resulting from lowered interest rates are estimated at \$3,550,000 annually.

HOMER POLLARD BE BURIED HERE LATE SATURDAY AFTERNOON

Funeral services for Homer Pollard, aged 40 years, former resident of Corsicana, who died in the Medical Arts Hospital in Dallas Friday morning at 10 o'clock, are to be held at the home of Mrs. Corley Pollard, 506 North Main street, Saturday afternoon at 5 o'clock with interment in Oakwood cemetery. The rites are to be conducted by Rev. O. W. Reece, pastor of the First Christian church.

Pollard had resided in California for a number of years and only recently returned to Dallas. He had been ill for some time.

Surviving are two children, Katherine and Douglas Pollard, both of Corsicana; three sisters, Mrs. Grace Thomsen, Mrs. Elsie McCarver and Mrs. Joe Riley, all of Dallas; and three brothers, Hugh, George and Roland Pollard, all of Corsicana.

Ballbearers are to be Tom McElwee, Harry Butler, R. Slaughter, L. C. Thompson, Roy Albright and Lige Cunningham.

Frost Is Seeking Building Gymnasium And Auditorium

FROST, Sept. 12.—(AP)—Members of the school board and civic leaders are seeking a site for a new WPA building to be constructed relative to the proposed building of a gymnasium-auditorium here.

In the event the project is put over, the school would probably be required to furnish 30 per cent of the cost.

Range to Gridiron to Hollywood to Circus

In the career of young Reb Russell of Northwestern, who made the All-American Team in 1930, was lured to Hollywood for heroic roles in western films, and is now seen in action with Russell Bros. Circus, which is due to give two performances in Corsicana on Monday, September 21st.

HIGHWAY ENGINEER WARNS DIVERSION OF GAS TAX BE COSTLY

BIG SPRING, Sept. 11.—(AP)—Gibb Gilchrist, state highway department engineer, today warned West Texas county judges and commissioners against diversion of the gasoline tax. He said diversion would mean, among other things, the loss of federal aid.

Gilchrist outlined workings of the highway department, saying its program can be continued under the present financial arrangement. He said next year's \$19,000,000 program would be under way by November, with all contracts let by January.

He cited laboratory work of the department whereby in the future more efficient construction materials will be available for lateral roads.

Paul Corbett, auditor for four Panhandle counties, discussed department problems. Olga Burch, state health nurse, was another speaker, telling of her work.

Registration at the judges and commissioners convention reached 250. The visitors were guests at a ranch barbecue.

Harry Hines, George Sheppard and G. H. Nelson were on the afternoon speaking program.

Lubbock, Abilene and San Angelo put in bids for the next convention.

The resolutions committee, headed by Judge H. W. Fillmore of Wichita Falls, started work through which the association expresses its ideas for legislation.

AUGUST HEAT AND DROUGHT CAUSE OF LIVESTOCK DECLINE

AUSTIN, Sept. 11.—(AP)—The extreme heat wave and lack of moisture during the first three weeks of August were very detrimental to ranges and caused a decline in the condition of livestock, the United States department of agriculture said today in its monthly report.

The condition of cattle ranges was placed at 75 per cent of normal on September 1 compared with 80 a year ago and 77 the 10-year average. Sheep ranges deteriorated to points during August, the condition of 79 on September 1 comparing with 82 a year ago and 77 the ten-year average.

Senator Norris, Nebraska, Accepts Plea Constituents

LINCOLN, Neb., Sept. 11.—(AP)—Senator George W. Norris, veteran Nebraska independent republican, today accepted a petition filing nominating him as an independent candidate for re-election.

He announced his decision in a letter received today by James E. Lawrence, Lincoln editor and chairman of a bi-partisan "Norris-for-Senator committee."

He had hoped, "the 75-year-old Senator said, 'that I might retire from public life. x x x Now comes this petition from more than 40,000 of my constituents. x x x I cannot lightly cast aside their request, coming from so large a number of Nebraska's loving people. Regardless of my personal wishes, I feel it to be a duty I owe them to accept this nomination.'

In the body of his address, the President said America was rapidly becoming a "matured" nation and that this was developing an "increasingly national part of nearly every citizen for his economic security."

"This matter of economic security, I take it," he continued, "is not to be achieved alone by aiming for a high national income—real national income—but by aiming for more abundant and more widely distributed national income."

"A satisfactory standard of living and security for a national household of nearly 130,000,000 people," he said, "is to be realized only by high productivity, broadly and equitably distributed and wisely proportioned with respect to its drain on natural resources and to the variety of human wants it is destined to satisfy."

He urged a public policy that would bring about a wider distribution of energy at the "lowest possible cost" and a decentralization of industry.

Mr. Roosevelt spoke a word of defense to the "public policy" toward electricity. He said: "One who considers the matter with forthright vision can not convince himself that public policy for promotion of availability of electric energy can really harm today."

He said he still held the belief he expressed two years ago at Grande Coulee Dam—that power eventually would be so cheap that it would become a "stand-by" article of commerce, not only for agriculture and manufacturing, but also for every home within reach of an electric light line."

Power Experts Gather
WASHINGTON, Sept. 11.—(AP)—A huge assembly of power experts from many nations gathered today to hear a message from President Roosevelt and watch him throw a switch starting the giant turbine of Boulder dam—highest dam in the world.

Some of the 3,000 delegates to the third world power conference expected a major pronouncement from Mr. Roosevelt on the administration's power policies.

The president, however, had not announced the subject of his talk before a joint meeting of the conference and the second congress on large dams.

ROOSEVELT LOOKS INTO FUTURE FOR POWER CONFERENCE

PRESIDENT SEES TIME NEAR WHEN HALF OF POPULA- TION'S WORK NEEDED

WASHINGTON, Sept. 11.—(AP)—President Roosevelt today advocated advance preparation for a future day when, through the conversion and application of energy, "half of the population can provide the basic machine-made products necessary for the welfare" of all.

Standing before the third world power conference, with representatives of 52 nations in his audience, the President said in an address that preceded his starting of the turbines of the great Boulder Dam:

"We can conceive that this would mean that the people will be able to produce the basic commodities for themselves and also for all others below and above those ages."

Should that condition arise he asserted, it would be the duty of the power experts to "think what would be the effect on our leisure, our culture and our way of life."

"I would suggest," he said, "that the answer should not be left solely in the hands of bankers, government officials or demagogues."

Speaking in the Marble Constitution hall a few blocks from the White House, the President, just back from a two-day whirlwind tour into the south, raised the question whether enough attention was being paid to "human engineering."

He also asked whether engineering genius, having "destroyed" the world of relative scarcity, had yet undertaken to create the new world of abundance which is potential in your command over natural energies."

Ceremonial attended the pressing of a small electrical button by the Chief Executive at the end of his address. He called to the attention of his audience to it as the instrument for stirring into "life and creative power" for the first time the "powerful turbines of Boulder Dam."

His words at the pressing of the button were written at the White House as follows:

"Boulder Dam; in the name of the people of the United States, to whom you are a symbol of greater things in the future; in the honored presence of guests from many nations; I call you to life!"

He was taking off for Tyronne, Pa., when the accident occurred. Witnesses said Herit attempted to climb too fast to get over a high tension wire at the edge of the field and that the ship went into a tail spin.

The plane was too close to the ground when Herit lost control. He was unable to land, the ship striking on one wing.

Fourier, operator of an airport in California, was dead when taken from the wreckage, while Herit died in an ambulance en route to a hospital.

The ship, a monoplane, was demolished shortly after taking off from Phillips airport.

The two flyers, with Herit piloting, left California a week ago, coming here by easy stages to visit Herit, an uncle of the crash victim.

They were taking off for Tyronne, Pa., when the accident occurred. Witnesses said Herit attempted to climb too fast to get over a high tension wire at the edge of the field and that the ship went into a tail spin.

One was fined on a drunkenness charge and two for overloading trucks on highways by Judge M. Bryant.

Two were fined on drunkenness charges by Judge W. T. McFadden. One of those fined by Judge McFadden was H. W. Kennard of Dallas who was fined \$200 and costs. Kennard was arrested by Deputy Sheriff J. M. Westbrook and Allen Calloway Thursday north of Corsicana after he was alleged to have threatened to kill the tax-driver.

He said further that milk and dairy products will be delivered to Corsicana by the use of the latest mechanically refrigerated trucks, which will insure the proper temperature at all times on the route.

On the first floor of the building will be a storeroom for the creamery's wholesale trade, dairy products, including pasteurized milk, butter, buttermilk, cottage cheese, and other by-products of milk. The two milk delivery trucks will be opened in Corsicana.

Mr. Nicholson said today that the creamery's business has outgrown its present quarters on West Second avenue. He added the new plant will be an improvement on the milk produced in Navarro county, and possibly other nearby counties.

CONSTRUCTION NEW, MODERN ICE CREAM PLANT ANNOUNCED

DANNY NICHOLSON PLANNING EXPENDITURE OF AP- PROXIMATELY \$80,000

Announcement was made Saturday by Danny T. Nicholson of the Nicholson Creamery of the erection in the near future of a model ice cream factory and dairy plant on the corner of West Seventh avenue and South Thirteenth street, representing an expenditure of \$80,000.

The plant will be built on a tract of ground facing 100 feet south on Seventh avenue and 130 feet west on Thirteenth street. The sale was recently completed between Mr. Nicholson and the owners by Mrs. Billy Peck.

The building will be of frame construction with light stucco finish, and decorated in the modernistic style with black glass and stainless steel. Over all the building will be 70 feet six inches by 61 feet six inches, facing south on West Seventh avenue, and with docks for receiving dairy supplies and loading trucks on the East and West ends.

Building Two Stories.
The larger portion of the plant will be located on the ground floor, but over the center portion of the building will be a second story, housing pasteurizing equipment, ice cream mixing machines, and a complete laboratory where all milk and other products will be tested thoroughly before using.

In addition to supplying ice cream and frozen sundries for the creamery's wholesale trade, dairy products, including pasteurized milk, butter, buttermilk, cottage cheese, and other by-products of milk will be handled in the dairy trucks will be opened in Corsicana.

Mr. Nicholson said today that the creamery's business has outgrown its present quarters on West Second avenue. He added the new plant will be an improvement on the milk produced in Navarro county, and possibly other nearby counties.

He said further that milk and dairy products will be delivered to Corsicana by the use of the latest mechanically refrigerated trucks, which will insure the proper temperature at all times on the route.

Four Killed When Truck Overturned Near Denison

DEMONSTRATION, Sept. 12.—(AP)—The death this afternoon of Miss Anna Louise Hogg, 17, and Miss Clara Simmons, 19, increased to four the number of fatalities to result from a truck accident north of Denison early today.

DEMONSTRATION, Sept. 12.—(AP)—A small truck loaded with Denison young persons overturned north of here early today, fatally injuring two and hurting 12 others, three gravely.

The MISS WILLIE MAY LOLLAR, 16, and JIM MUNCIE, 18, were killed.

Mrs. Floyd Thompson suffered a crushed skull and was not expected to live. Miss Clara Simmons, 19, increased to four the number of fatalities to result from a truck accident north of Denison early today.

Among the less seriously injured were Lellan Miller and Tillman Woodley, broken shoulders; Sonny Thompson, 14, son of the critically hurt woman, two toes of right foot lost; Mrs. Deas Hayes, Maud, Okla., broken right leg, and Edith Vinson, Paul, Okla., broken arm.

The accident occurred after a party for Mrs. Thompson who had recently sold a sandwich stand at which several of the victims were employed. The truck was driving toward Red river to take one of the group home.

CHAIRMAN HIGHWAY COMMISSION TOURS LOCAL ROAD SYSTEM

HOPED PLANS MAY BE PERFECTED FOR EARLY COM- PLETION OF 22

After making a thorough tour of inspection of roads in Navarro county and other nearby portions of Central Texas, Harry Hines, chairman of the state highway commission, expressed a hope Friday afternoon that the highway commission made a tour of inspection of the roads in Navarro county, and possibly other nearby counties.

Mr. Hines came to Corsicana Friday morning on private business and made a tour of inspection of the roads in Navarro county, and possibly other nearby counties.

He said further that milk and dairy products will be delivered to Corsicana by the use of the latest mechanically refrigerated trucks, which will insure the proper temperature at all times on the route.

On the first floor of the building will be a storeroom for the creamery's wholesale trade, dairy products, including pasteurized milk, butter, buttermilk, cottage cheese, and other by-products of milk. The two milk delivery trucks will be opened in Corsicana.

Mr. Nicholson said today that the creamery's business has outgrown its present quarters on West Second avenue. He added the new plant will be an improvement on the milk produced in Navarro county, and possibly other nearby counties.

He said further that milk and dairy products will be delivered to Corsicana by the use of the latest mechanically refrigerated trucks, which will insure the proper temperature at all times on the route.

AMIDST WARPLANES' ROARS DER FUEHRER ADDRESSED LABORERS

HITLER DECLARES GERMANY WILL DEFEAT RUSSIA IF HOUR COMES

(Copyright, 1936, By Associated Press.)
NURNBERG, Sept. 12.—(AP)—Adolf Hitler, with hundreds of Nazi warplanes roaring in aggressive tempo overhead, declared today Germany would be overwhelmingly prosperous "if we had" the rich agricultural lands and the ore-laden mountains of Soviet Russia.

Speaking before the labor front after he had told thousands of worshipful boys and girls that Germany would triumph over Russia "if the hour ever comes" when there is war, Der Fuehrer shouted:

"I had the Urals, if we possessed Siberia, if we had the Ukraine, national socialist Germany would be swimming in surplus prosperity."

As he spoke, 200 heavy bombers and hundreds of pursuit planes wheeled and circled above the congress hall.

It was only for a brief minute in his long speech, however, that Hitler suggested the advantages Germany would gain by the possession of lands to the east.

In a few words, he painted a picture of the plenty which such acquisition would bring in contrast with Germany's present difficult struggle against the raw material shortage.

Problem Must Be Solved.
Describing the Soviet surplus of land and materials, he declared: "I am not in any doubt as to the position of the Soviet Jews. Nevertheless, Germany's problem must be solved."

"There is no such thing as saying it cannot be done. It can be done if we are determined to do it. Germany must live!"

The Reichsfuehrer's whole speech was a plea for patience, fortitude and determination in the task which, he admitted, might take a generation to solve.

Earlier, before the 50,000 young Nazi boys and girls, Hitler had declared of Russia:

"Swastika to Conquer Star."
"Let him carry his Soviet star. We will conquer in the sign of the Swastika."

(Hitler referred to the Black and Red Swastika emblem of Nazi Germany and the five-pointed red star of Soviet Russia.)

"I have never seen a man when our old adversary makes an attempt upon us," the Fuehrer told the picked delegations of junior Nazis, "you will be standing beside him, behind and before me and will help me fight."

"When I look upon you I realize I have not fought in vain," Hitler told the youths who were brought to the national socialist convention for "meritorious service to the party."

"You are finer youth than Germany ever had before," the Fuehrer complimented the boys. "You have the good fortune to be witnesses to a great period."

FIVE MEN BURNED DEATH FOLLOWING KATY TRAIN WRECK

ST. CHARLES, Mo., Sept. 11.—(AP)—At least five men were killed when 18 freight and oil cars of an M-K. T. train were derailed and destroyed by fire last night 20 miles southwest of here, and rescuers expressed fear today several other transients may have been killed.

A transient, found immediately after the wreck, said before he died he was Walter Bragg, 36, of Columbia, O., and that papers in his pockets bore that name.

The other four bodies were found on the tracks several hours after the accident occurred. Intense heat of the burning cars had prevented a search, being made late in the afternoon. Two of the bodies were burned beyond recognition but it might be possible to identify the other two, railroad employees said.

Bragg told rescuers four others were riding with him, but it was impossible to determine if these four were his companions.

Farmers and residents of small towns nearby gathered to aid rescuers in digging into the torrid pile of twisted iron and charred wood.

BEAUTY CHATS

By EDNA KENT FORBES.
All requests for beauty information desired by Edna Kent Forbes' column followers must be accompanied by a fully self-addressed, stamped envelope (a.s.e.) and two cents in stamps to cover cost of printing and handling. For the illustrated pamphlet, "BEAUTY," two cents in stamps with fully a. s. e. must be enclosed. Address Miss Forbes in care of this paper.

IMPORTANT TRIFLES.

Today Miss Forbes tells you what to do in order to look well groomed at all times. This is often a first step on the road to genuine good looks.

If you will analyze carefully the appearance of any one of the women whom you admire most, you will find that her good looks are due to a number of carefully thought out details. Beauty is often only a matter of important trifles.

Superfluous hair for one thing. Never let a thick fuzz of hairs show above your lip. Bleach all this growth with peroxide of hydrogen and use your tweezers (made antiseptically clean by dipping them in peroxide first) to pull out the larger hairs. Shave off hair under the arms and on the legs even during the winter when the legs are covered with stockings. Then there is the matter of finger nails. The woman who cares for her appearance never lets her nails get stained in the corners. The way to prevent this and to keep the nails well bleached at all times is to have a small bottle of peroxide of hydrogen (20 volume) with a few drops of household ammonia added and a little bit of soap. A few soap flakes will do. This forms a bleaching, bubbly mixture which should be rubbed under and around the nails whenever they are washed. A wisp of cotton wool is the best way to use it. As it is cheap, you can use a great deal of it. Otherwise you can use lemon juice, though this is not so strong a bleach and costs more. Whichever kind you use should be followed by oiling the nails, since all bleaches are drying.

What about your hair? The woman who values her appearance always looks as though she had just come from the hands of an expert hairdresser. But this does not mean even weekly visits to a hairdressing shop. The hair can be shampooed and set once in

two weeks, then, if it loses its wave, on the alternate weeks it can be reset without being shampooed, an idea which saves money and time and which is really healthier for the hair. When the wave begins to come out you can pinch it back in place with some of the new gadgets which the shops sell for this purpose. And the ends can be rolled around curlers.

THROBBING MOTORS OF FOUR HUNDRED WARPLANES HEARD

By WADE WERNER

(Copyright 1936, By Associated Press.)
NURNBERG, Germany, Sept. 11.—The throbbing motors of 400 warplanes gave a military background today to Nazi Germany's anti-Soviet campaign—a crusade which observers believed was approaching announcement of practical steps against Bolshevism.

The planes, tri-motored bombers flying in formation, pursuit planes and craft of other types, awakened delegates and visitors in this Nazi convention city at dawn. Finally, approximately 400 planes were assembled at airports around Nurnberg in preparation for demonstrations scheduled Monday.

At the congress itself, German departmental leaders took up the anti-bolshevik campaign where Adolf Hitler, Dr. Paul Joseph Goebbels, Dr. Alfred Rosenberg and Rudolf Hess had left off.

Hermann Reischle, Nazi agricultural leader, in a speech contracted "the ruthless exploitation of Soviet Russian peasants for the benefit of a clique of Jewish parasites" with what he said were the German Führer's constructive efforts on behalf of German farmers.

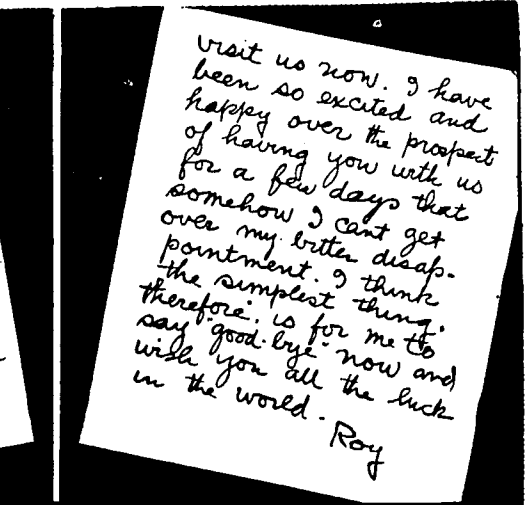

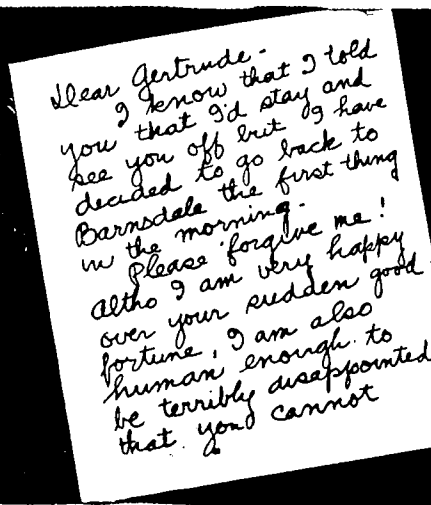

The anti-bolshevik campaign appeared to be leading so systematically to practical action that it was believed widely some definite step was imminent. Some persons have suggested this might take the form of withdrawal of the German ambassador to Moscow.

New York Cotton Steady

NEW YORK, Sept. 14.—(P)—Cotton futures opened barely steady at 12.00, 2 points higher with heavy trading of near-months and foreign buying of distant positions. Oct. 12.12; Dec. 12.10; Jan. 12.18; March 12.00; May 12.00; July 12.05.
--

Hedge selling was quite active during early trading

by buying through houses with trade and foreign connections. A 12.12 while in December closed 12.12. May after selling at 12.08 early held about that figure at the end of the day. Half hour before closing, however, about unchanged to 5 points below Saturday's closing with the latter deliveries relatively steady.

Liverpool cables said Bombay selling and hedging had been taken by

and speculative buying and selling with both European and far Eastern connections were among the buyers here during the first half hour.

Reports reaching the trade from the South said picking had been making

rapid progress on the upland but that many lowlands had not yet opened enough bolls for picking to be started. The market showed little change in the day increased liquidation and hedge selling, futures closing barely steady, to 14 lower; spot quiet; middling 12.45.

New Orleans Cotton Opens Lower

NEW ORLEANS, Sept. 14.—(P)—Quiet dealing brought price reactions at the opening on the cotton market today.

Accumulated hedge offerings over the week-end supplied the market with plenty

of contracts and the market continued in a flat support near month's slipped off. Oct. opened at 12.09, Dec. at 12.10, March at 12.04, May 12.00, July 12.05. Comparative firmness in distant options was attributed to commission houses buying and some far Eastern connections.

Market letters this morning were bullish

and with the market continuing in a flat support, near month's slipped off. Oct. opened at 12.09, Dec. at 12.10, March at 12.04, May 12.00, July 12.05. Comparative firmness in distant options was attributed to commission houses buying and some far Eastern connections.

Weather reports showed little change over Sunday, although the expected lowering of temperatures was

expected along the northern fringe of the belt. Near months worked up to good gains during the day, but the market was speculative buying and switching from near to distant months.

A favorable cotton consumption report by the census bureau also aided bullish sentiment.

The government agency reported that 57,240 bales of cotton were consumed in August, a drop from July but a sharp advance from the 408,324 bales in August.

With trading at the halfway mark Oct. sold at 12.17, Dec. at 12.18 and March at 12.07, ending the day with the market

as well as later options. Considerable hedge selling centered in March and May.

N. O. Cottonseed Oil Steady

Second Will By E. H. R. Green Is Hint of Lawyer

ELIZABETH, N. Y., Sept. 14.—(P)—A suggestion that a "second will" exists in which Col. Edward H. Green fabulously wealthy financier, left most of his fortune to his widow instead of his sister, Mrs. Matthew Asst. Wilkes, was made in court as representatives of the two women came to grips over control of the inheritance today.

Colonel Green, "railroad queen" of Wall Street, died at Lake Placid June 8, leaving an estimated estate of \$80,000,000.

As Surrogate Harry Owen opened a hearing on the 180-word will filed after Colonel Green's death, Spence Eddy of Saratoga Springs, counsel for Mrs. Mabel Harlow Green, the widow, declared he had received "an alleged copy of an alleged will" supposed to have been made in 1928.

He said he was not offering this will because he was not sure of its authenticity, but he told Judge Owen it left \$1,000,000 or \$1,500,000 in various bequests and left the remainder "to the widow."

The will on file at Port Henry, near here, was drawn in March, 1908, nine years before Colonel Green married, and is worded as to bequeath the entire fortune to the sister.

SELLING ENTERED STOCK MARKET IN MONDAY TRADING

LEADERS LOST FROM FRACTION TO AS MUCH AS TWO POINTS IN DEALS

NEW YORK, Sept. 14.—(P)—

Stock market stalwarts bumped into quiet but persistent profit realizing today and despite a modest rally in the final hour, losses of fractions to a point or more were widely distributed at the close.

A few afloaters and specialties managed to buck the trend and finish at higher levels. Transfers were around 1,000,000 shares.

By VICTOR EUBANK, Associated Press Financial Writer

NEW YORK, Sept. 14.—(P)—Selling tremors rippled through the stock market today and many of the leaders were shaken down fractions to around 2 points.

Dealings were light, however, and a number of specialties near the fourth hour managed to

weather the squall for minor advances. Wall Street found little change in the generally pleasing business and industrial picture but some traders evidently were inclined to accept part of their profits pending the result of today's main election.

Among resistant shares were Continental Oil, Texas Corp., Douglas Aircraft, Boeing, United Aircraft, Goodyear, Pittsburgh Screw and Boat, Socony-Vacuum, Warner Bros., Loew's and General Electric.

Losers included U. S. Steel, Bethlehem, Youngstown Sheet and Tube, General Motors, Chrysler, Montgomery Ward, Sears Roebuck, Spiegel-May-Stern, J. I. Case, American Telephone, Western Union, Consolidated Edison, North American, Anacosta, Kewanee, U. S. Smelting, Howa Sound, American Can, Westinghouse, Du Pont, Santa Fe, N. Y. Central, Baltimore and Ohio, Northern Pacific and Southern Railway.

Bonds drifted to slightly lower levels. Commodities and foreign currencies were mixed.

Brighter prospects for both the transport and manufacturing division of the aviation companies served to bolster these stocks.

Large military and naval orders were looked for in view of the heavy expansion of armaments abroad and the consequent home defense requirements.

Curb Weak

NEW YORK, Sept. 14.—(P)—Buying activities were under restraint in the curb market today and most active issues lost ground during early trading.

The generally unimpressive character of support was emphasized by fairly wide declines in various leaders under small offerings.

Gulf Oil, Aluminum Co. of America, Lake Shore Mines, American Gas and Electric, Electric Bond and Share and International Petroleum yielded fractions to about 1 1/2 points in the first hour's dealings.

In a limited group showing steadiness at slightly higher levels were stocks like Sunbeam, Mining, Pioneer and Columbia Oil and Gasoline.

There will be an ice cream supper right across road from Nash school house, west of Richland, Friday night, Sept. 16, benefit baseball club. Everybody invited.

Slight Slump In Consumption Of Cotton August

WASHINGTON, Sept. 14.—(P)—Cotton consumed during August was reported today by the census bureau to have totaled 574,289 bales, compared with 608,203 and 702,426 during July this year, and 408,325 and 59,102 during August last year.

Cotton on hand August 31 was reported held as follows:

In consuming establishments 752,219 bales of lint and 158,002 of linters, compared with 805,084 and 182,137 on July 31 this year, and 648,533 and 164,342 on Aug. 31 last year.

In public storage and at compresses 4,336,724 bales of lint and 20,693 of linters, compared with 3,924,011 and 55,033 on July 31 this year, and 4,505,412 and 27,845 on August 31 last year.

Exports during August totaled 126,487 bales of lint and 10,585 of linters, compared with 156,262 and 19,331 in July, and 241,844 and 10,662 in August last year.

Cotton consumed during August in cotton-growing states totaled 480,846 bales, compared with 504,321 in July this year, and 242,829 in August last year.

HENDERSON COUNTY OFFICERS WILL FACE CHARGES WEDNESDAY

MEXIA, Sept. 14.—(Spl.)—Four Henderson county officers are to be given a hearing Wednesday at 2 p. m. in Judge Fountain Kirby's 77th district court in Groesbeck on a charge of contempt of court.

Judge Kirby said today. He said the officers who were not immediately located when service of citations on them was attempted, and that they had agreed to accept service, and attend the hearing. Their attorneys have communicated with him to that effect, he says.

Judge Kirby, whose district includes Limestone and Freestone counties, issued an injunction against raiding of a night club in Henderson county, but it was raided anyway and citation was issued for Sheriff Jess Sweeten, Deputies Elton Corley, Constable Pete Wood and Deputy Dallas Cramer. Hearing was originally set for Saturday Judge Kirby's 77th district court in Groesbeck on a charge of contempt of court.

Miss Hilda recalled a case that was handled by her office yesterday. A woman with a small child was seeking refuge from runaway Corsicana stores and officers, and said she wanted to buy food for herself and her child. The woman said she had been to the United Charities, but because she was from outside the county, she was turned down.

Several other persons asked for money called the United Charities office and found the woman had not been there as she had said. She was told to go to the office, and she would be taken care of.

Miss Hilda said that the woman did not visit the office. Several other cases were cited by the United Charities secretary, in which persons ask for either money or clothing and when they receive it they use the money on alcohol, the clothing into cash and buy dope or liquor. Several cases of this type have come under the observation of the United Charities in recent weeks, and are not uncommon to the local charities officials.

Miss Helm also said some persons have the opinion their work is confined to the city, but recalled that every day or two her office is called upon to do some kind of work in the country.

"Just yesterday," Miss Helm said, "we worked all the morning scouring the west part of the county looking for a family, to get some information concerning a child-adoption case for an organization in Houston."

The secretary said her organization is still in need of school supplies or money with which to purchase them. They have many children able to attend school, but are being held back by lack of supplies.
